TUGAS 3 APLIKASI PERSEDIAAN DAN PENJUALAN

Buatlah aplikasi sederhana persediaan dan penjualan menggunakan struktur kode eksternal untuk HTML, CSS, dan JS. Edit kode di atas dengan logo gambar kelinci yan ditaruh pada folder aset.

The screenshot shows a web application interface for inventory and sales. At the top, there is a logo of a rabbit. Below the logo, the title "Aplikasi Persediaan & Penjualan" is displayed. The main content area is divided into two sections: "Tambah Produk" (Add Product) and "Daftar Produk" (Product List). The "Tambah Produk" section has three input fields: "Nama Barang" (Product Name), "Harga Barang (Rp)" (Product Price), and "Jumlah Stok" (Stock Quantity), followed by a "Tambah Produk" button. The "Daftar Produk" section is a table with columns: "Nama Barang", "Harga", "Stok", "Update Stok", "Jual", and "Hapus". It lists three products: Beras, Gula, and Minyak Goreng. Below the product list is a "Keranjang Penjualan" (Sales Cart) section, which is a table with columns: "Nama Barang", "Jumlah", "Total Harga", and "Aksi". It shows two items: Minyak Goreng and Gula. Below the cart table, the "Total Belanja: Rp 175.000,00" is displayed, followed by a "Selesaikan Penjualan" button. Below that, the "Total Penjualan: Rp 0,00" is displayed, followed by a "Reset Total Penjualan" button.
